Here is the run down of some of the items being offered: Skull caps, funny sayings on products, organic products, Support cause items, text message baby, Sillysouls, Snug n Go, Princess Linen, Rattle me, Pinkaxle, Punk baby clothing, and much more! “There is something about offering kids’ and baby items from moms themselves that is more intriguing and interesting than of other stores that are run by people that do not even have children” Sandra said. “It is my personal opinion that moms would prefer to buy from individuals that understand their needs as parents, and of course purchase items that are safe, trendy, stylish and affordable, it is my pleasure to offer just that!” Sandra Lopez, CEO, Founder. www.lilboyblu.com
